

GloboNest – Frequently Asked Questions

What is GloboNest?

GloboNest designs and manufactures modular, eco-friendly tiny homes. Our goal is to make sustainable living accessible and affordable through compact, energy-efficient housing solutions.

How much does a GloboNest home cost?

Prices start at \$39,000 for a studio unit and go up to \$95,000 for a fully equipped two-bedroom model. Customization and off-grid features can affect the final price.

Can I relocate my home if I move?

Yes. All GloboNest homes are modular and portable. You can disassemble and reassemble them at a new location, or request our optional relocation service.

Is GloboNest off-grid capable?

Yes. Our homes can be equipped with solar panels, composting toilets, and rainwater collection systems to support off-grid living.

What materials are used in construction?

We use sustainable materials including recycled steel framing, bamboo interiors, low-VOC insulation, and triple-glazed windows to ensure energy efficiency and durability.

Where do you ship?

We currently ship to the United States, Canada, the European Union, Australia, and select regions in Asia. Delivery times and fees vary by location.

Can I customize the layout?

Yes. You can choose from a set of standard layouts or work with our design team to create a custom configuration tailored to your needs.

How long does it take to receive a unit?

Standard units are ready to ship within 10–12 weeks. Custom units may take up to 16 weeks depending on the complexity of the design.

What are your customer support hours?

Our customer support team is available Monday to Friday, from 9:00 AM to 6:00 PM (Eastern Standard Time).

How can I contact customer support?

You can reach us via:

- Email: support@globonest.com
